

Quality Italian Axles

MAKE THE MOST ESSENTIAL TUNING TOOL ON YOUR CHASSIS YOUR AXLE!!

Prodezine offers:

6 Flexibilities/Hardnesses in 40mm Diameter

8 Flexibilities/Hardnesses in 50mm Diameter

Both Diameters are available in

1020mm Long or 1040mm Long

CHOICE OF HARDNESS

- **Softer axle will generally**
 - **'Loosen' up the kart**
 - **Reduce 'bogging' out of turns**
 - **Overcome increasing track grip**
- **Harder axle will generally grip the kart up more**

CHOICE OF LENGTH

- **Shorter axle generally lets the kart 'roll' a little side to side making it nippier through chicanes and right/left combinations**
- **Longer axle will increase the lateral stability of the kart improving grip on sweeping turns**
